The purpose of the checklist is to provide a ready reference when assessing designs and/or site locations for alteration and new construction projects in order to satisfy Duke’s obligations under 42 U.S.C. 12182(b)(2)(A)(ii), 12182(b)(2)(A)(iii), 12182(b)(2)(A)(iv), and 42 U.S.C. 12183 (a). It outlines the ADA accessibility “elements” which need to be considered and provides links to the enforceable standards, ADA, Accessibility Guidelines (ADAAG). Places of public accommodation and commercial facilities covered by Title III of the ADA are required by 28 CFR 36.401, 36.402, 36.406 to comply with ADAAG. The ADAAG provides detailed requirements which are likewise reflected in the NC Accessibility Building Code, Volume 1-C. It should be noted that final accountability for inclusion of all ADA requirements rests with design professionals in all phases of new construction and alteration design projects.
